AQAR 2021-2022

1.1.1: The Institution ensures effective curriculum delivery through a well-planned and documented process

### **1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process**

The college makes consistent efforts to ensure that the curriculum is delivered effectively. At the commencement of the Academic year the Academic calendar is prepared by the College Level Monitoring Committee. The teaching schedule for each subject is prepared by the teachers at the start of the academic year. The department head reviews the lesson plan. According to University standards, periodic student evaluations are conducted. The curriculum described by the University of Kerala is adopted by the college as it is required, so there is little room for the college to add their own chapters. Teachers put forth their best efforts to guarantee quality and promote academic growth. The department head checks that the curriculum is being followed before conducting a review. The Department Head informs the Principal of the curriculum's compliance, and at the conclusion of the term or year, the performance of the students is assessed through an examination and their comments. To assess the students' comprehension, practical, theoretical, and oral exams are given. The college strictly adheres to the exam schedule. The college fully fulfils all of its obligations to the staff, including the compliance with the curriculum. Action taken reports are created by relevant committees and reviewed in college meetings to ensure prompt action is taken and to advance the college's development. The implementation of the **MIS (ERP) SDC campus Genie** facilitates the effective curriculum delivery and its documentation.
